

GYM BADGE

Train smarter. Earn your badge.

THE PROBLEM

Fitness apps promised a coach. They shipped a spreadsheet.

- **Numbers without guidance.** A tracker tells you what you ate. It never tells you what to do next.
- **Ghost answers.** AI chat with nobody accountable behind it, and no way to reach a human.
- **Ad-funded attention.** Free apps monetise members' data and their workout photos.
- **First-week churn.** New members quit when nothing explains the plate, the programme, or the progress.

THE SOLUTION

One app: eat. train. badge.

EAT

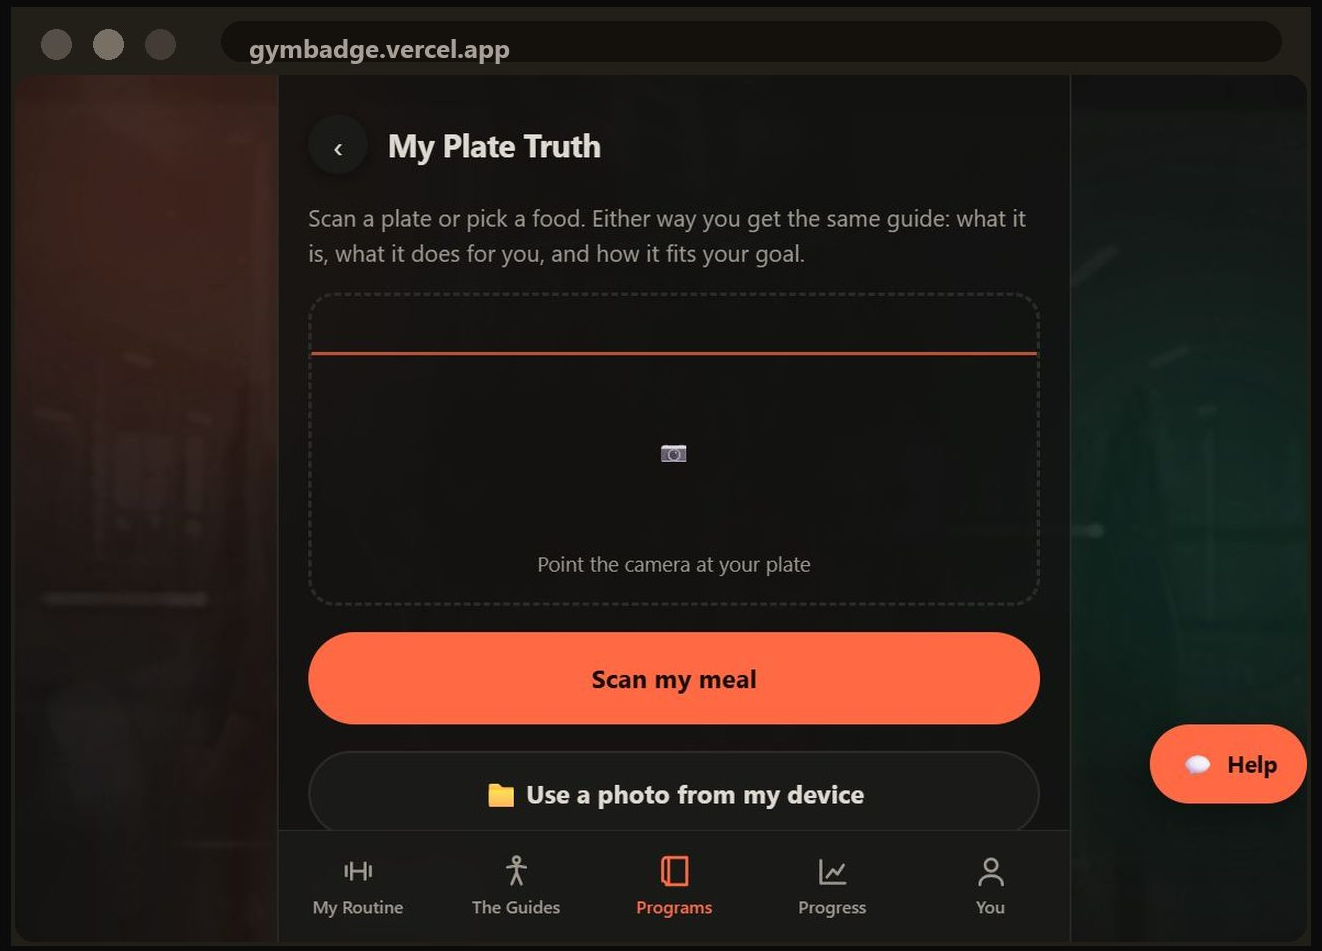

My Plate Truth. Photograph any plate: what it is, what it does for you, and ask it anything right there.

TRAIN

148 guided disciplines, a routine built in four taps, and a log that remembers every rep.

BADGE

Progress charted week after week. Real trainers a tap away. Works offline, anywhere.

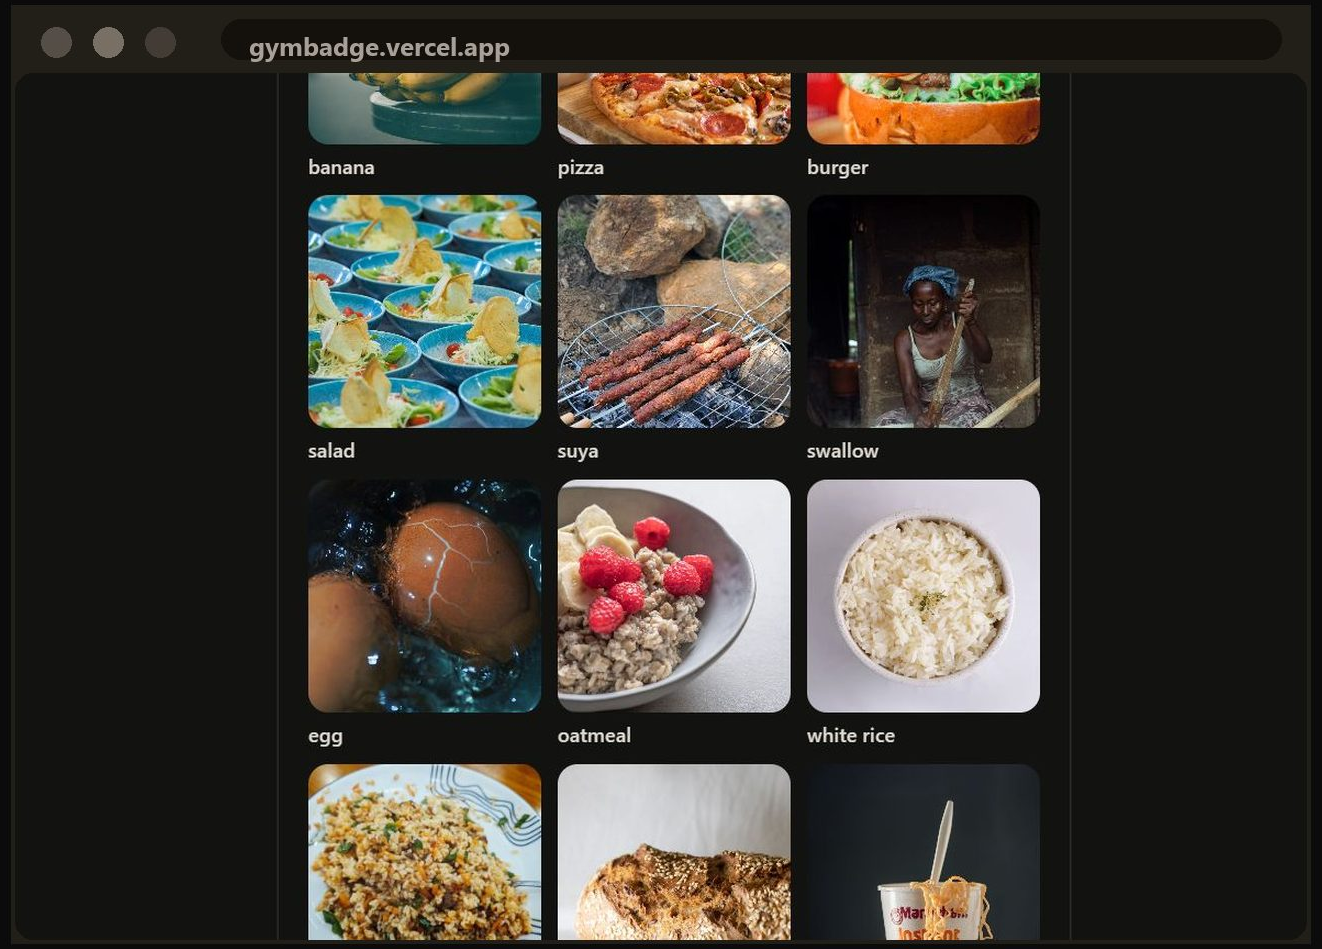

MY PLATE TRUTH

Point your camera at any meal.

Get a plain guide: what it is, what it does for you, how it fits your goal.

Scan my meal

THE FOOD LIBRARY

46 foods. 101 real photographs.

Jollof. Swallow. Suya. Salad. Egg. Everything you actually eat.

THE GUIDES

148 step-by-step exercise guides.

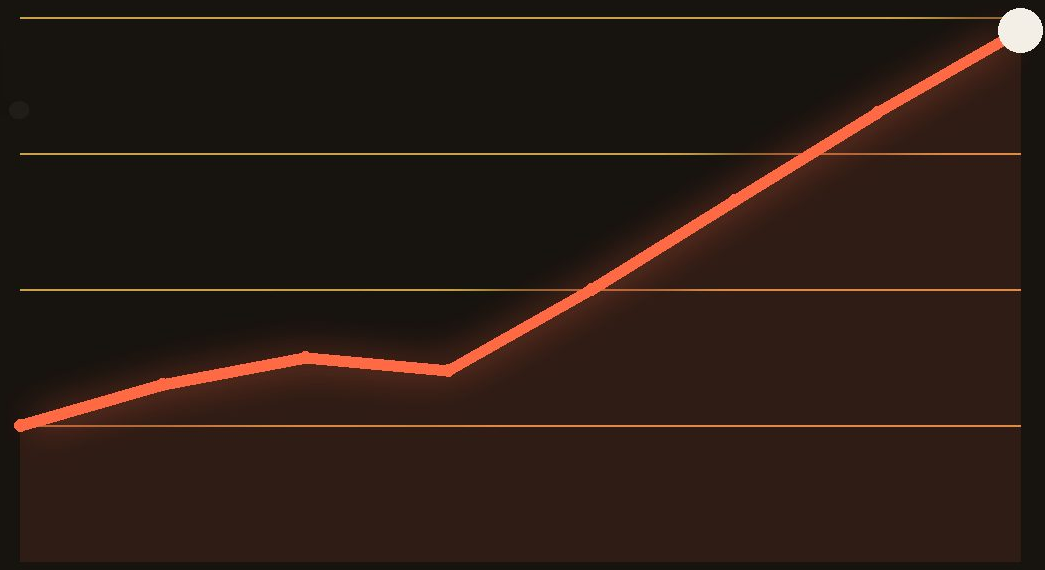

THE PROJECTION

See the body you are working toward.

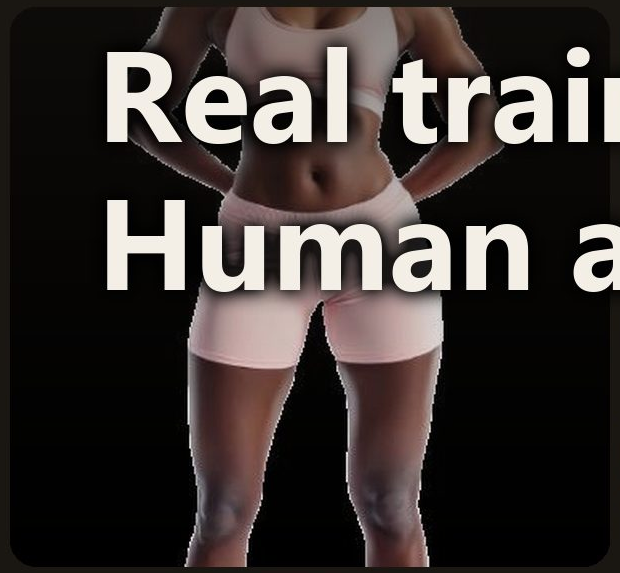

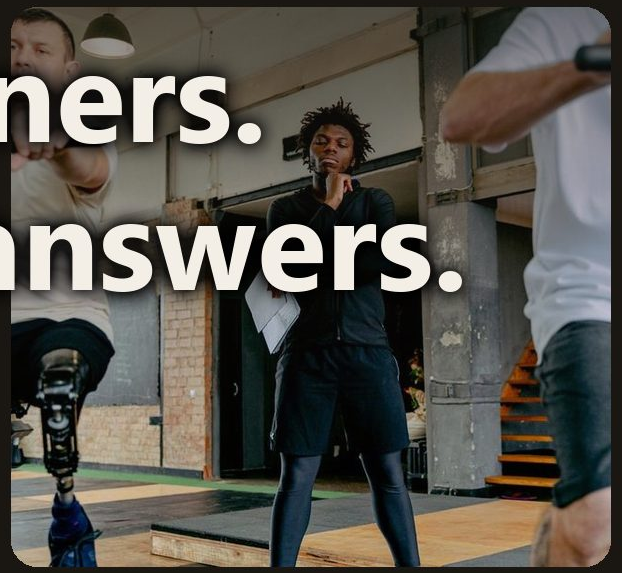

Charted, week after quiet week.
Streaks, milestones and tomorrow, all in one place.

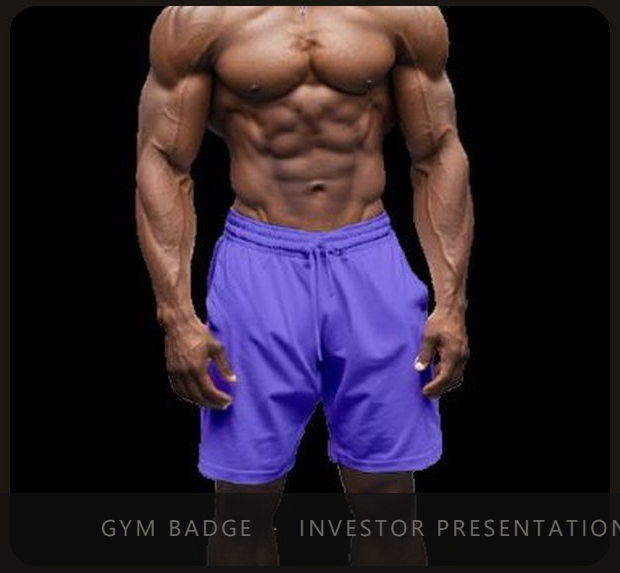

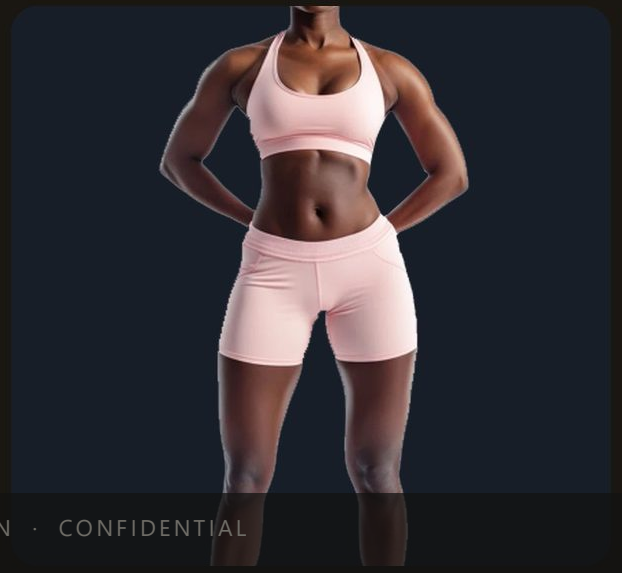

PROGRESS YOU CAN SEE

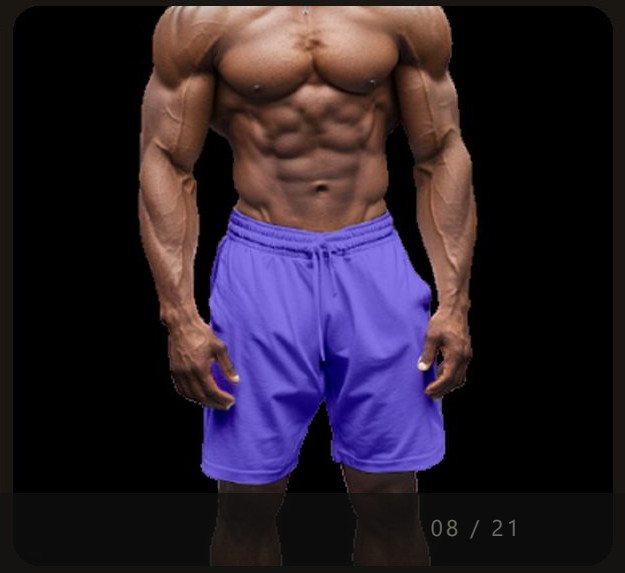

TRAINERS

Real trainers. Human answers.

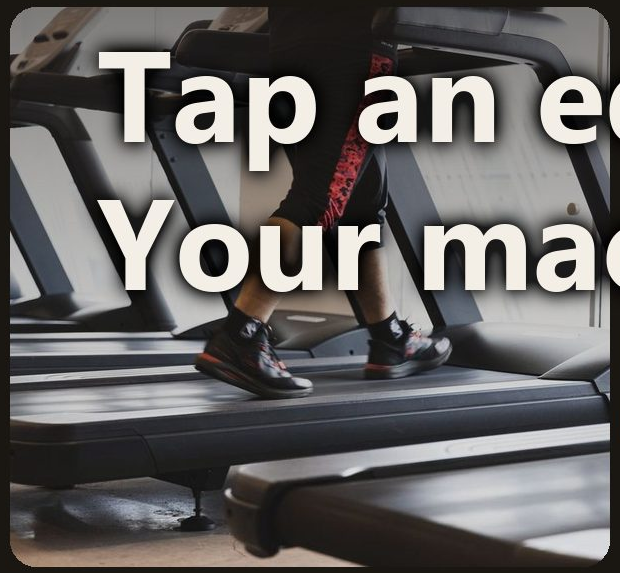

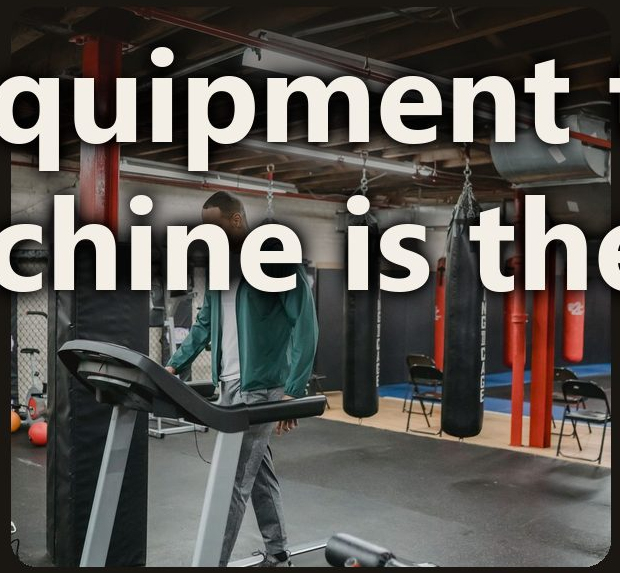

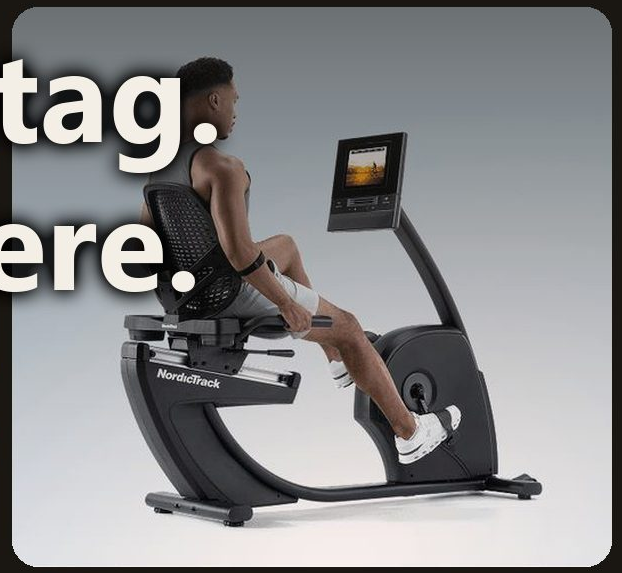

GYM EQUIPMENT

Tap an equipment tag. Your machine is there.

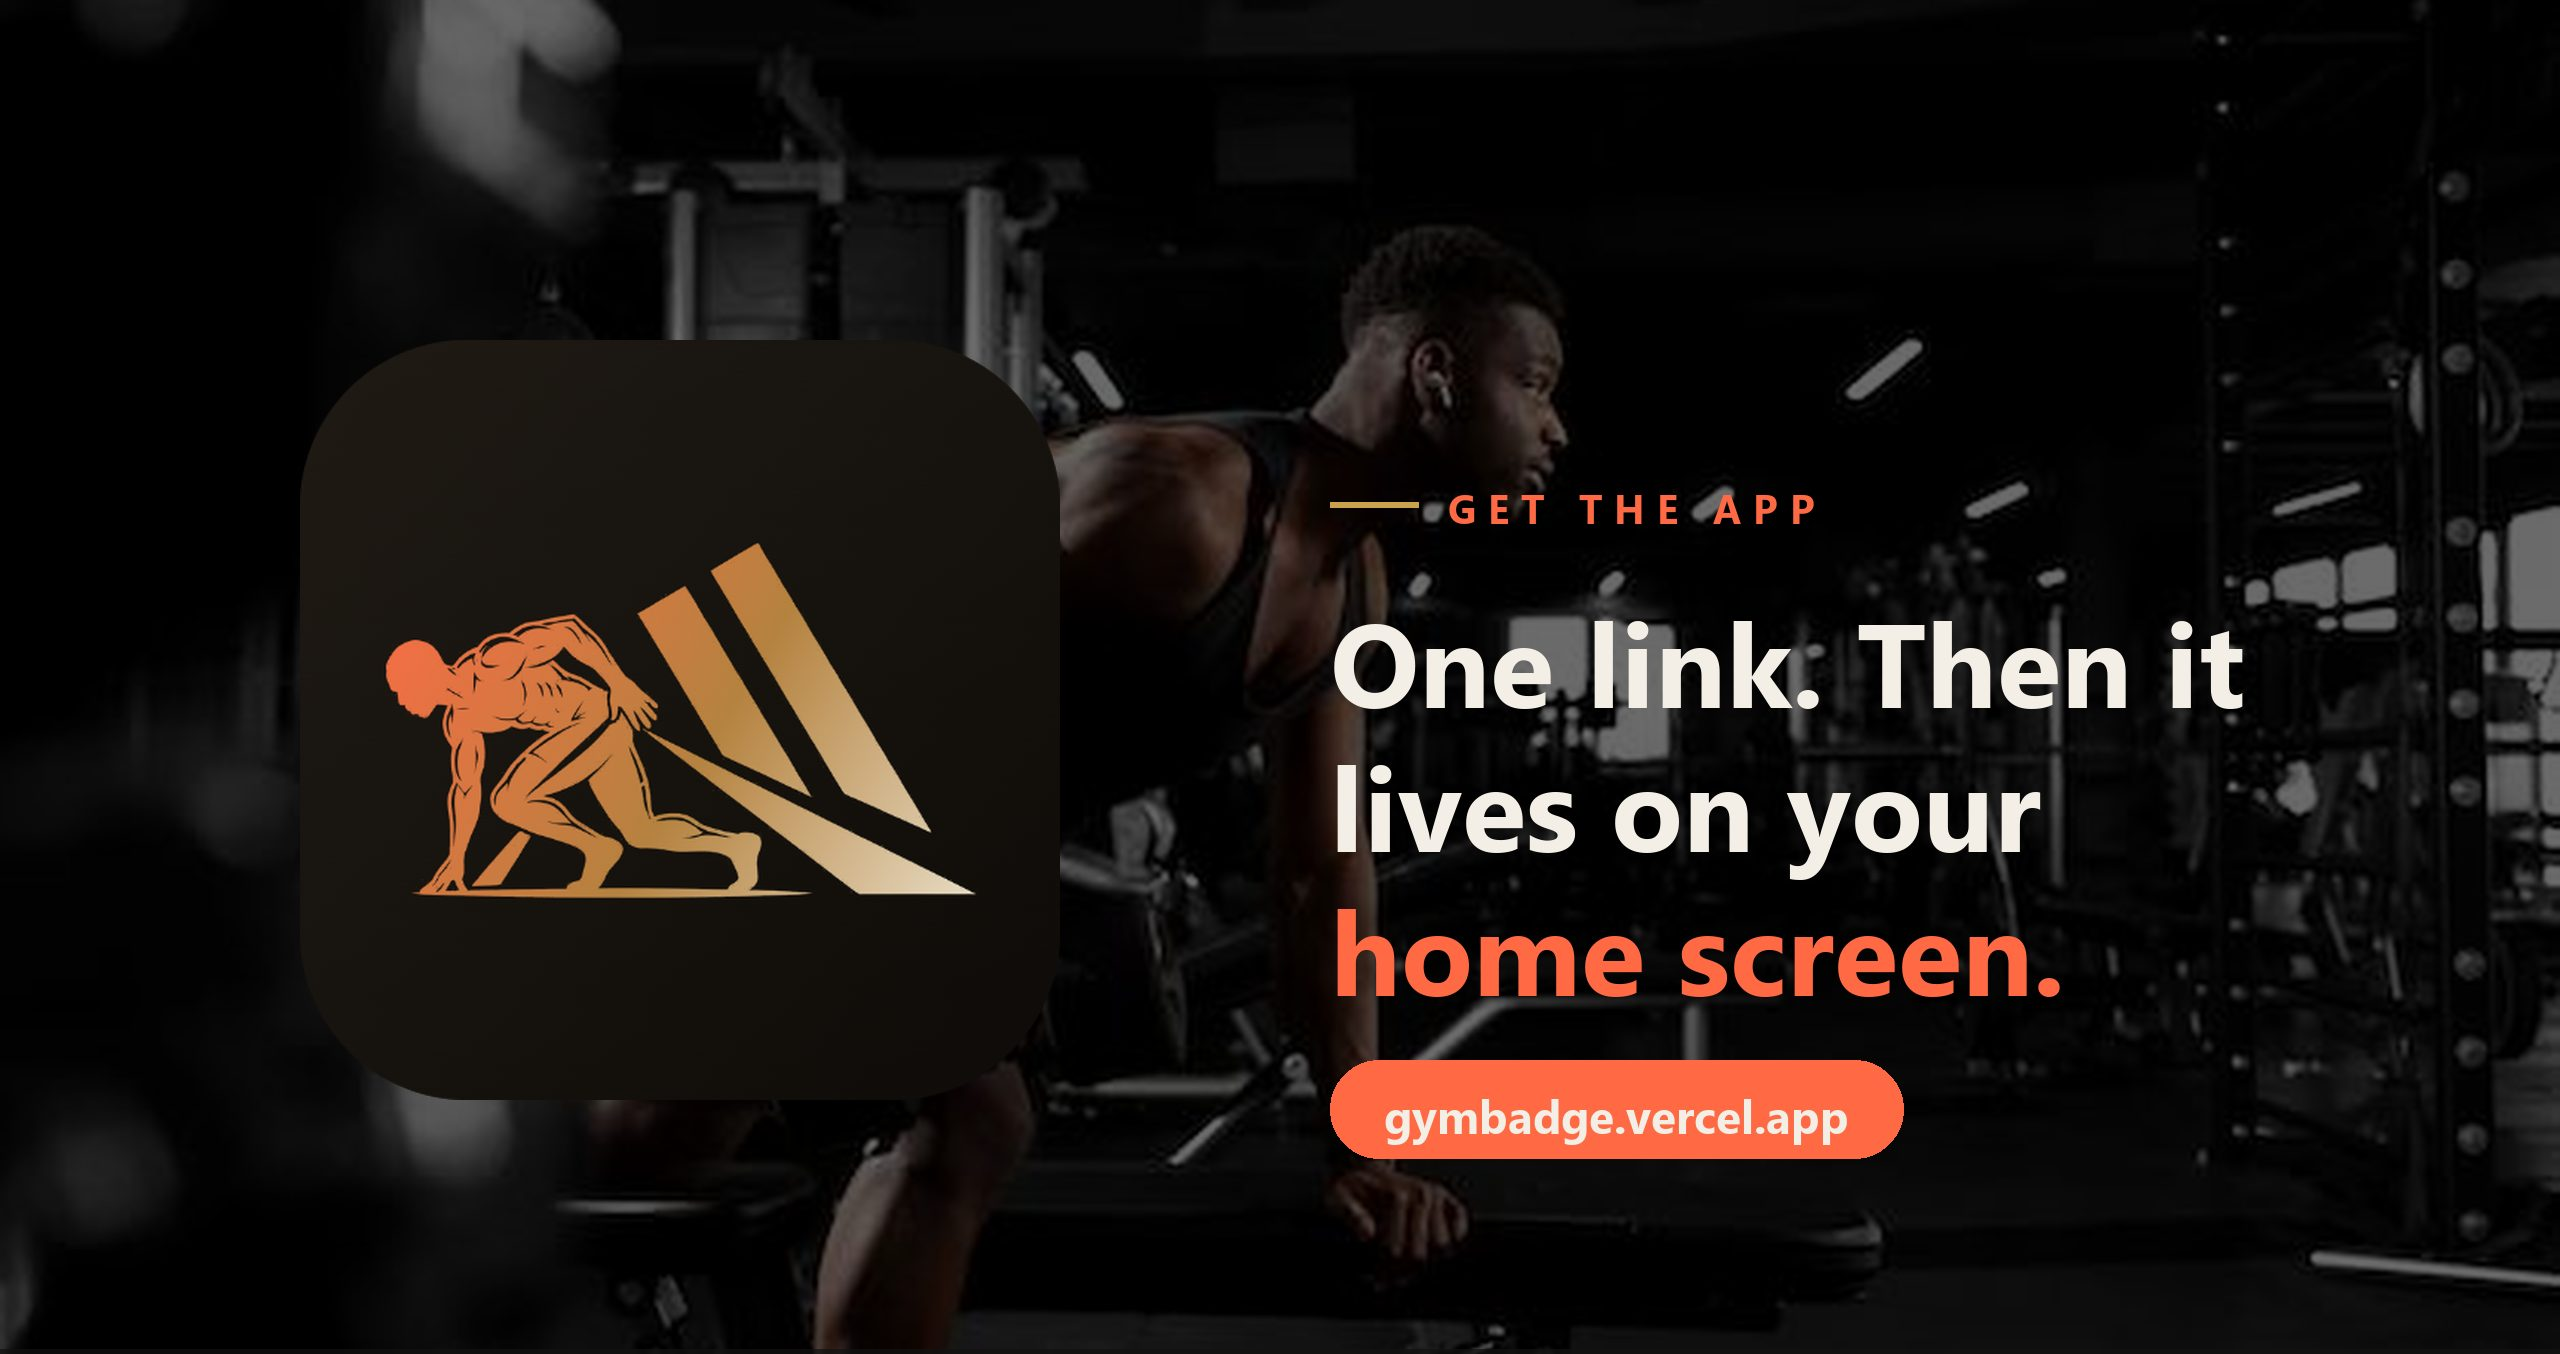

GET THE APP

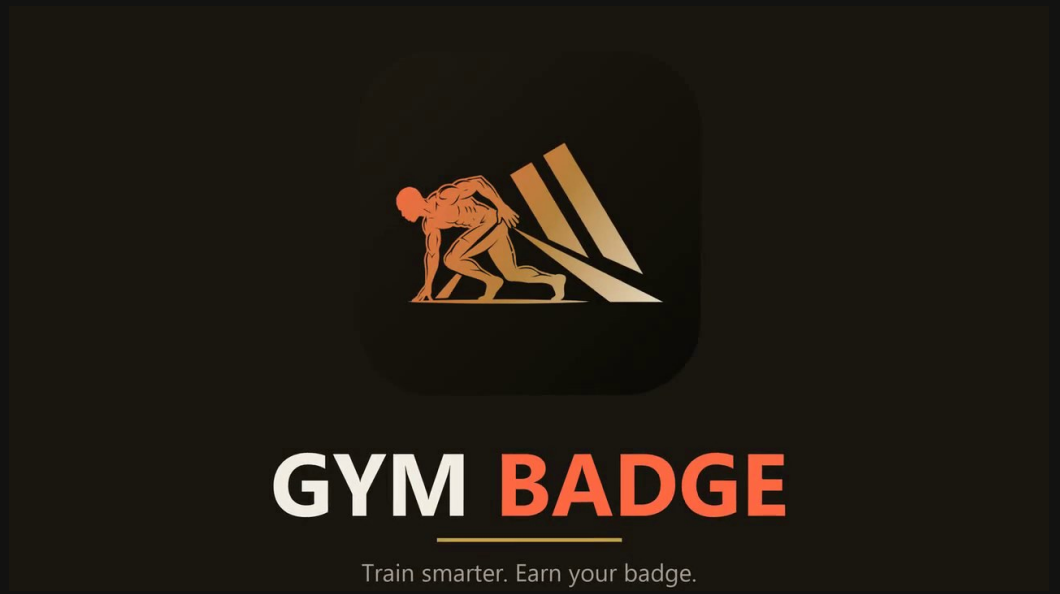

One link. Then it lives on your home screen.

gymbadge.vercel.app

THE DEMO

The full tour in 1:47.

- **Narrated product tour.** Every MVP feature, deep-voice narration, hip-hop score.
- **Live now.** gymbadge.vercel.app/demo - scan to watch.
- **Plays anywhere.** Any browser, any phone, no install.

THE MARKET

Nobody bundles the floor and the plate.

- **The category.** Global fitness apps: **$12.1B in 2025** , growing **13.4% a year to $33.6B by 2033** (Grand View Research, Fitness Apps Market, 2026-2033).
- **Our wedge.** Food truth plus guided training plus NFC equipment tags - one membership, three jobs.
- **Distribution built in.** A link installs the app. No store review, no 30% cut, updates land instantly.
- **Channels are users.** Every gym and every trainer in the product is a distribution point, not a cost line.

COMPETITIVE LANDSCAPE

Trackers count. We change the plate.

CAPABILITY	GYM BADGE	FITNESS TRACKERS	AI CHATBOTS
Plate truth from a photo, with follow-up questions	**YES**	Database logging	Text answers only
148 guided disciplines + routine builder	**YES**	Running plans only	-
Live gym equipment status (NFC / QR)	**YES**	-	-
Offline-first, installs from a link, no store cut	**YES**	Varies	-
No ads, no data sales, human support	**YES**	Ads / paywalls	Varies

Why now: 858M fitness-app downloads in 2023 (Business of Apps) - none of them own the floor.

BUSINESS MODEL

Grow on trust, not traps.

MEMBERS

Free core, premium depth. Premium **~$3.23/mo** (₦5,000) across 16 currencies; Elite ~$6.13/mo.

GYMS

Equipment tags and floor analytics. Seats from **$1.94/seat/mo** - Team, Business, Enterprise.

TRAINERS

Bookings and marketplace share. **15%** at launch, flexed per partner.

List ARPU ≈$38.71/yr · seats in blocks of 5/10/20 · no ads, no data sales. Ever.

WHERE IT STANDS

Shipped. Not slideware.

- **In production.** gymbadge.vercel.app - live, branded, current; offline-first PWA installs from a link.
- **Gated by tests.** 180 UI wiring checks and 162 behaviour checks gate every push; human support within one business day.
- **Measured, not estimated.** Installs, scans and premium conversion are instrumented from day one.
- **First-12-month targets (targets, not results):** flagship gym house open · 10 gyms on NFC tags · weekly conversion tracking · trainer marketplace beta.
- **Channels are users.** Link-install means 0% store cut and instant updates; every gym in the product is a distribution point.

ROADMAP

Three moves from here.

NOW

Flagship gym house buildout. Gym partnerships for equipment tags.

NEXT

Clubs, streaks and public badges. Trainer marketplace beta.

THEN

Floor dashboard for gyms, B2B pilots. Months 6-12 post-close.

THE TEAM

One founder. Team-grade shipping.

Tearsmith

Founder & CEO

Self-taught engineer and lifelong fitness builder - background across engineering, hands-on training and prior startup work. Designs, builds and operates Gym Badge end to end: product, the AI food engine, 148 exercise guides, payments across 16 currencies, and a pipeline that gates every push on 342 automated checks. One person already ships what normally takes a team.

First hires on this round: two engineers, one growth & partnerships lead, one gym-ops lead for the flagship house.

THE ASK

$1.5M pre-seed SAFE.

$8M valuation cap · 20% discount · rolling close over 4-6 weeks.

12-month milestones. Flagship gym house open as the pilot floor · 10 gyms on NFC tags · premium conversion tracked weekly · trainer marketplace beta.

More of the product.

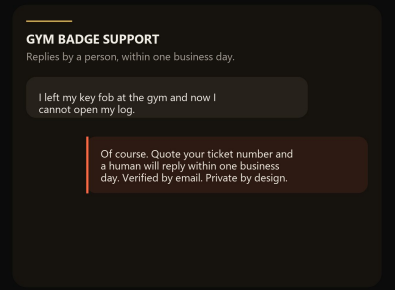

HOW IT WORKS

Four taps from the door to the badge.

Real accounts.
Real verification.
A human who answers.

Private by design. Escalate to a person whenever one should be reached.

APPENDIX - ENGINEERING

Built like it matters.

- **Offline-first PWA.** Service worker with versioned caches; every release bump is tested, every asset revalidated.
- **Python API.** Rate-limited assistant with safety and escalation handling, verified email flows.
- **Media pipeline.** H.264 demos generated and verified in-repo - the same rigour as the app.
- **Brand discipline.** Approved artwork and real photography only; nothing reaches the screen untraceable.
- **Green before push.** Both suites gate every commit; production is re-verified after every deploy.
